

Welcome to Ridge Manor Nursery

Dear Friends,

Thanks for your business over the years; we look forward to continuing to bring you great plants! We wanted to tell you about some exciting changes at the nursery:

We're a cans-only operation now. Our can yard is huge – 250 acres, mainly #5s – all right here in Madison. We no longer have outlying properties and no longer offer field plants. Everything is right here, where we can maintain the inventory more closely than ever before. This allows us to focus on growing quality plant material as well as providing more prompt responses to your needs.

Expansion where you asked for it:

- More "Big Stuff"™ large potted plants (#10s and larger), a major improvement over big B&B plants – customers love Big Stuff™!
- More and better availability of Weeks roses, in our popular 3-gallon "Leaf 'n' Bud" Roses program. Excellent hybrid teas, shrubs, minis, and tree roses – ready to go.
- More high-demand West-Coast plant material, including more potted Japanese maples and more potted grafted conifers.

Operational improvements, too! We've been assessing and streamlining our inventories, to guarantee better availability and to be more responsive to your business's needs. New production changes mean you'll get on-time spring delivery. And turn-around time will be faster.

So have a look at our new, improved catalog – and give us a call or come by soon. We look forward to serving you!

Sincerely,

David Ogle, General Manager
